Online Library A Dolphins Body Dolphin Worlds

The dolphin diet in captivity is a little different than in the wild. For starters, instead of live, fresh fish, dolphins are served frozen fish. But dolphin facilities still try and give their dolphins a variety of fish. For instance, SeaWorld feeds their adult bottlenose dolphins a variety of fish including mackerel, smelt, capelin, and herring.

Dolphin Diet

In some places, male bottlenose dolphins form coalitions to isolate females and coerce mating — sometimes kidnapping the females for weeks at a time — but it ' s not known if this is common behavior in all pods around the world, let alone if similar behaviors occur regularly in other species. If aggressive mating systems are commonplace, then it would make sense for such sexual conflicts ...
