~~LESSON 1 DISCOVERING YOUR SENSE OF PLACE~~

~~Sense of place—the way we perceive places such as streets, communities, cities or ecoregions—influences our well-being, how we describe and interact with a place, what we value in a place, our respect for ecosystems and other species, how we perceive the affordances of a place, our desire to build more sustainable and just urban communities, and how we choose to improve cities.~~

~~Sense of Place—The Nature of Cities~~

~~The term sense of place has been used in many different ways. It is a multidimensional, complex construct used to characterize the relationship between people and spatial settings. It is a characteristic that some geographic places have and some do not, while to others it is a feeling or perception held by people. It is often used in relation to those characteristics that make a place special or unique, as well as to those that foster a sense of authentic human attachment and belonging. Others,~~
