1. Gonstead Adjustment. One of the most common chiropractic techniques is the Gonstead adjustment and it used to diagnose and fix specific issues such as long-term back pain with the use of the hands-on technique. This adjusting technique is virtually universal in chiropractic education. The Gonstead Concept of Chiropractic was established in 1923 by Clarence Selmer Gonstead. Clarence Gonstead created an alternative and innovative way to analyze the spine thank to his mechanical engineering ...

## Read Book Adjusting Observations Of A Chiropractic Advocate During A Time Of Change

One cannot expect to learn how to adjust the spine simply by observing a chiropractic adjustment itself. While it may look simple in casual observation, what you can't see are the force vectors the chiropractor uses-- the angles and amplitudes needed to move the vertebra, and the subtle things the chiropractor does to stabilize the spine before delivering the thrust.

Amazon.co.uk: chiropractic tools

The conclusion to this study states that "The removal of the subluxation by chiropractic adjustment results in improved conduction of the neural impulses as demonstrated on the post-adjustment tests. The improvements that were observed are similar to the changes seen when neurological compromise is relieved by surgical procedures to decompress or stabilize the spine."
