BMW Timing Chain Diagnosis & Repair If you own a BMW model from any of the BMW 1, 3 or 5 series manufactured between 2007 and 2011 then your car is liable to have a timing chain problem. The luxury German machines are prone to a specific engine problem, a timing-chain-wear caused largely to the use of the newer N47 motor engine.

BMW Timing Chain Issues & Repairs - European Service Center

BMW N47 Engine Repair Marius Garage has an extensive experience in repairing BMW N47 2L Diesel Engine type in Limerick. We have the original tool set and diagnostic equipment for testing and repairing n47 engines. We know this model inside out.

BMW N47 Engine Repair Limerick - Marius Garage

I recommend those people that have a BMW with the N47 engine to service it every 7,000 miles, chains need fresh oil to stay healthy, and so do turbos. Lease companies hire cars out on maintaince free contracts of normally 3 years 36k miles, you get the car serviced every year and hand it back at the end of the period with the mileage at no more than 36k or you pay a fee for every mile you go over.

The N47 BMW Engine timing chain issue - Car Repair

At Engine Professionals we specialise in all engines in the BMW range. Our most popular replacement is the notorious N47 range of diesel engines where we regularly do between 5 and 6 per week. This covers models such as 1 series, 3 series, 5 series and X3.

BMW - EngineCentre.Com

In the case of BMW N47 timing chain snaps, there is a collision with pistons take place between the exhaust valves and the inlet that results in massive engine damage. In a result, it will start bending all the 16 valves, twist and snap both camshafts, shatter the rocket arms and also snap the camshaft housing.

What is The Biggest Problem in BMW N47 Diesel Engine?

Diagnosing a bmw n47 engine using gmt0 scope using, relative compression and crank/cam timing test

Bmw n47 diesel engine "Won't run" diagnose - YouTube

All of these vehicles share the engine code N47/N47D20A. Rebuilding a BMW engine that 's suffered a snapped timing chain is a complex task. If you are lucky the chain simply needs replacing, in most cases the entire engine will have to be replaced.

BMW 's N47 engine nightmare — Sell Your Problem Car

The N47 engine family is prone to excessive timing chain wear and premature failure. Rattling noise from the rear of the engine is indicative of the condition. Timing chain failure may call for engine replacement or a costly repair.
