Exploring Materials: Creative Design for Everyday Objects ...

Instead of glossy double page spreads of avant-garde materials accompanied by highly technical descriptions of their properties, readers of Exploring Materials are given a guided, almost hand-held tour through an exhaustive list of broad material categories along with tips and tricks on their use. Although the back of the book proclaims that it contains "everything designers need to not only jump-start their design process, but also follow a project through from idea to prototype to finished ...
