I was in the engine bay I decided to remove the paint covering the engine number and to my surprise it started with ...

12J engine ? | LandyZone - Land Rover Forum

The Series II Land Rover launched in 1958 was larger, heavier and more complex than the original, and there was an ever-present need for higher powered engines. Also, the Rover petrol engines in use at the time, with the archaic Inlet-Over-Exhaust valve layout and were approaching the age of 20 years in design terms. A new, larger petrol engine specifically developed for the Land Rover was needed.
